

# YOUR SERPENT CHARMS

The magic of the Rainbow Serpent is ancient and powerful – use it to initiate change in your life, to eradicate negative energy and to charge talismans and charms.

## TRANSFORMATION

Snakes are associated with transformation as they shed their old skin to reveal the new one beneath – and the Rainbow Serpent is also associated with water.

Combine these themes in a spell to cleanse yourself of all your feelings of negativity.

Prepare a hot bath, scented with a few drops of purifying benzoin oil. Scrub your body with an exfoliating soap, singing "Like a snake I shed my skin, revealing the power and beauty within".

Get in the bath and soak a while to remove the scrub. Feel yourself golden with confidence, having sloughed off the negativity that you wanted to lose.

**Prepare your body for a bath-time ritual to get rid of negativity.**

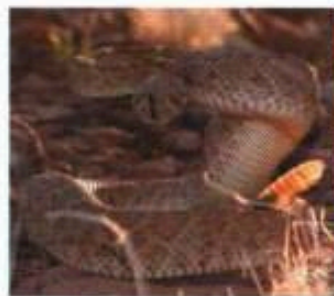

## DANCING DELIGHT

Snakes move with a sinuous and seductive movement and you can capture this same hypnotic power through the Rainbow Serpent. If your partner is in need of cheering up, hypnotise them like a snake back to good cheer!

Treat your partner to an exotic evening of dinner and dance! You could also prepare a dish of his or her favourite foods, burn sandalwood oil to set the mood and play romantic music.

**Coil and dance seductively – just like a snake!**

For the next part of your seduction – and you might want to judge your partner's mood for the right moment – dance sensuously and sinuously like a snake. Encourage your partner to join you in your serpent dance and try to laugh and have some fun – just dance all your blues away!

## SERPENT WISDOM

Many cultures connect snakes with wisdom – think back to the myth of the Garden of Eden, where the serpent coiled around the forbidden tree of knowledge of good and evil. The Aborigines especially equate the Rainbow Serpent with ancient wisdom.

Try to find a piece of snake jewellery and consecrate it during the full Moon. Close your hands around your wisdom talisman and imagine a serpent coiling across the heavens; try to visualise that the Moon is one of the snake's eyes.

Hold the talisman to the Moon and see it being filled with colour as you sing "Rainbow Serpent in the skies, empower this charm to make me wise".

**Purchase a snake brooch or bracelet and then consecrate it.**

## RAINBOW CHARM

Create this charm the next time that you see a rainbow. You may choose to empower jewellery or a small, rounded pebble.

Look up at the beauty of the rainbow and remember that it is a reflection of the power of the Rainbow Serpent. Say the following incantation as you hold the rainbow in your gaze:

"Red for eloquent serpent speech, orange for power within my reach, yellow for gold and gaining wealth, green for serpent strength and health, blue for emotions flowing like a wave, indigo for wisdom from the deepest cave, violet to bind and calm, Rainbow Serpent charge my charm."

**Next time you see a rainbow, say a spell while gazing at it.**
